Personal statement

I am a person who approaches issues from more aspects and tries to get to the best solution through a complex analysis of pros and cons. I believe that on long term the win-win solutions are the best solutions. I do not see problems, I only see challenges, and I am always ready to learn more in order to be well-prepared to tackle them.

Personal skills

- ambitious and seeks new challenges
- good at analysing pros and cons, while focusing to the goal
- strong organising and time managing abilities
- efficient decision maker
- self-aware and takes responsibility
- strong and efficient communication and convincing abilities
- diplomatic and considerate
- self-disciplined, consistent and reliable
- multi-tasker, working in multinational environment
